

Job Title: Metalworker / Fabricator

Location: Stafford Park 17, Telford, TF3 3DG

Wage: To be agreed based on experience and ability.

Hours: Basic 39 hours per week:

8am – 4:30pm Mon-Thurs and 8am – 3:30pm Fri

Overtime maybe required at higher overtime pay rate during periods of high workload.

Duration: Permanent

Details: A skilled Metalworker / Fabricator / Craftsman is required to manufacture aluminium fabrications, architectural windows, curved components and frames etc. from aluminium extrusions & sheet. Training will be given to the suitable applicant.

- Must have good working knowledge and skill in operating various types of metalworking machines including sawing, drilling, tapping, fly press, milling machines, sheet metal machines, power tools and hand tools.
- Able to hand shape and adjust curved metal parts to accurate size & shape.
- Able to read drawings, set out templates and set up machines.
- Skills in section/ring rolling, tube bending and welding would be advantageous
- Work safely, efficiently & tidily and maintain quality procedures.
- Other light engineering work will also be required. The person must have a flexible outlook.
- This job would suit a person from a sheet metalworking, blacksmithing, carpentry, panel beating, car body repair/building or similar background, or have excellent model making skills.

Additional Info: Midland Alloy has been established for over 45 years and specialises in section bending, machining & welding, making components, frames and assemblies for the automotive, rail, aerospace, medical, architectural and engineering industries.

To Apply: Please send you CV via post or email recruitment@midlandalloy.com.
